Pick-up or delivery

The client can arrange to pick up a CTH from our yard at a agreed date and time, and make arrangement for the return of the CTH.

At that time we will show the client how everything operates. If it is a demountable unit we will provide a video on CD showing how to demount and remount the unit on and off the sub-frame trailer unit.

The client may alternatively request us to deliver and setup on site at a agreed date and time, and make arrangement for the collection and return of the CTH. There is a charge for this service, based on the distance we have to travel.
